**Subject:** MOT Motivation

Hi Julia

In my capacity as MOT presenter/coach and co-ordinator since its inception at Northlink College, I would highly recommend the programme to be integrated at all schools and colleges.

Education is placed into context and a greater purpose can be derived from introspection and self-development for our youth.

Two Student Support Facilitators persevered with the implementation with the help of a few staff members.

The results speak volumes.

Feel free to reference articles submitted to the TVET College Times Vol 56 March 2019 namely, "College honoured for academic excellence by being ranked first in SA" about *Parow Campus* on page 10 achieving a pass rate of 93% for NC(V)

Vol 57 June 2019:

"College achieves near perfect pass rate in Educare" about *Goodwood Campus* on page 14 with a pass rate 98%

MOT ensures a collaboration between lifeskills and academics in shaping our vulnerable youth, holistically and equipping them with the necessary values, motivation and resilience in dealing with challenges, discovering their strengths and impacting positively on their communities.

A spinoff in being involved in the programme, is an unplanned personal reflection that sustains you as you draw from your own experience in life.

Thank you for the opportunity and may you prosper going forward.

Kind regards
